

Multi-Pole Approach to Structural Science

May 10 - 13, 2015
Polish Academy of Sciences
Staszic Palace
Warsaw, Poland

Invited speakers:

- Matthias Bochtler
- Dominika Borek
- Krzysztof Brzezinski
- Marek Brzozowski
- Grzegorz Bujacz
- Janusz Bujnicki
- Maksymilian Chruszcz
- Marek Cieplak
- Tomasz Cierpicki
- Mirosław Cygler
- Zbigniew Dauter
- Zygmunt Derewenda
- Andrzej Dziembowski
- Witold Filipowicz
- Maria Gdaniec
- Adam Godzik
- Jolanta Grembecka
- Paweł Grochulski
- Robert Janowski
- Mariusz Jaskolski
- Andrzej Joachimiak
- Krzysztof Jozwiak
- Andrzej Kolinski
- Janusz Lipkowski
- Jacek Lubkowski
- Karolina Majorek
- Karolina Michalska
- Wlodek Minor
- Piotr Neumann
- Wiesław Nowak
- Marcin Nowotny
- Zbyszek Otwinowski
- Agnieszka Pietrzyk
- Waldemar Priebe
- Urszula Rychlewska
- Wojciech Rypniewski
- Piotr Setny
- Tadeusz Skarzynski
- Joanna Sulkowska
- Marcin Suskiewicz
- Marta Szachniuk
- Joanna Trylska
- Alexander Wlodawer
- Krzysztof Wozniak

The purpose of this conference is to discuss the advances in all aspects of structural sciences that have been promoted with the participation of scientists with Polish roots and/or with significant links to Poland, whether working in Poland or abroad. Participation of all interested scientists, whether Polish or not, is encouraged. Presentations by the invited lecturers and by speakers chosen from the abstracts should show that investing in science and science education is the best option for Poland and that Polish scientists can and do have very successful careers. For students and young researchers this meeting should become a venue to find positive career models and inspiration for fascinating interdisciplinary research in structural sciences.

Topics of the conference:

The invited speakers represent mostly biocrystallography and structural bioinformatics, but other presentations are expected to cover a much broader area of crystallography, from structural and materials chemistry to molecular medicine, in both experimental and computational aspects, including structural databases and data mining.

Special Plenary Speaker

Ada Yonath

Nobel Prize in Chemistry, 2009

Special Guest

Iain Mattaj

Director General, EMBL

Organizing Committee:

Janusz Lipkowski
Maria Gdaniec
Mariusz Jaskolski
Zbigniew Kaszukur
Wojciech Kwiatek
Krzysztof Lewinski
Krzysztof Wozniak

Program Committee:

Alexander Wlodawer
Janusz Bujnicki
Zbigniew Dauter
Mariusz Jaskolski
Janusz Lipkowski
Wlodek Minor
Joanna Trylska
